The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on rea! estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of indi-viduals or corporations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerning Loans and Investments."
